

Dear Partner,

**Will you help propel Asian Hope into 2010 through giving before year-end?** Together with generous and committed partners such as you, we have accomplished so much this year towards our goal of helping to revitalize Cambodia in the name of Christ. There is even more to get excited about for this upcoming year!

*The Fruit of Your Investment* **We are seeing great fruit from the last 10 years of work.** Today, 13 students from Asian Hope's homes for orphaned children are studying at 6 different colleges in 4 different countries. These are students who 10 years ago lived on the streets with deep emotional wounds, no education, and no hope. Now, they have graduated from Logos International School and are great examples of why it was granted a 6 year accreditation from both the Association of Christian Schools Internationally (ACSI) and Western Association of Schools and Colleges (WASC) earlier this year. Asian Hope will commence classes in the brand new campus for Logos International School on January 11<sup>th</sup>. This will allow more students to receive a top notch education and have the life-changing chance to learn of God's love for them.

**Because of your help, we are able to extend these same opportunities to even more Cambodian children: Asian Hope International School (AHIS) will open its doors on January 12<sup>th</sup>.** Quality, affordable education is a major void in this third-world country. **This school will be geared toward the growing middle class.** Cambodia, like most third-world countries, has a small very wealthy class and a large poor class, but a very minimal middle-class. One major catalyst of change in revitalizing Cambodia will be to equip and build the middle-class. Students attending AHIS will receive a quality education that will allow them to graduate high school and gain skills and knowledge to be productive, self-sufficient members of society. AHIS will begin with Preschool ages 3 and 4, and kindergarten. We will add a new grade each year through high school.

*Reaching More Children*

*Sex Trafficking Ministry* In addition, **Asian Hope will begin a sex-trafficking ministry** working to halt the devastating reality that more than one of every 100 girls and women in Cambodia encounter. In an appeal letter written months ago, we communicated the immense struggle for Cambodians to overcome the sex-trafficking industry that operates there. **Many experts believe that SE Asia is the sex-trafficking capital of the world, and that Cambodia is the capital country.** We know that in order for Cambodia to become successfully revitalized it must overcome the black-eye of sex-trafficking.

Asian Hope will have a student from Harvard medical school spend the month of January evaluating what the real needs are in combating sex-trafficking, what is already being done, and what needs to be done. Then in the summer, a husband and wife team will be moving to Cambodia with the wife working full-time to build this program while the husband teaches at Logos.

Many of you have stepped out in faith this year, despite the struggling economy. **We thank you for that, and we still need your help!** Consider giving today and helping Asian Hope step into 2010 with an overwhelming confidence in what God has set before us in this year of milestones.

God Bless,

Jordan Fischer  
Vice President of US Operations  
303.653.6576

*Thank you so much  
for your partnership!*

**P.S. Partner with Asian Hope now as 2010 brings about a new school, a sex-trafficking ministry and the opening of Logos International School's new campus!**
